*Charlotte Alexander
Dux of 2011*

While our Higher School Certificate students celebrated their excellent results before Christmas, one quarter of our students chose to study the IB, as an alternative qualification for university entry, and received their results on January 4.

"I am very pleased with the performance of Central Coast Grammar School students in the 2011 HSC and IB," said Headmaster, William Low. "Our school has a proud tradition of academic excellence and we have seen an increase again this year in the number of students achieving Band 6 HSC / IB (equivalent) results in one or more subjects. As last year, over 60% of our students have achieved an ATAR over 80, a result of our consistent focus on giving a broad range of students access to their preferred university course."

"This year's students worked hard to achieve their personal best. I am particularly impressed with students who have challenged themselves and are now rewarded for their amazing efforts," said Denise McDonough, Head of Senior College. "I congratulate all students, their parents and teachers, on their achievements and I wish them every happiness in their choices for the future."

Both the Headmaster and the Head of Senior College would like to pay tribute to the hard work of students, the professionalism of teaching staff and the ongoing support of parents.
